A Brief about the Visit: The Hong Kong Observatory is a government department responsible for forecasting weather and issuing warnings on weather-related hazards. It also monitors and assesses radiation levels in Hong Kong, and provides other meteorological and geophysical services to meet the needs of the public and the shipping, aviation, industrial and engineering sectors. It provides weather services to the public, fishermen, shipping community, special users, as well as the aviation sector. It also provides tailor-made weather service for major local events, including the 2008 Olympic equestrian event in Hong Kong

For apply, please send the email to sl.mak@instmc.org.hk with your name, company name, phone number.

*****The visit will automatically be cancelled if Tropical Cyclone Warning Signal No. 3 or higher, or any Rainstorm Warning is in force at noon on the scheduled date.*****
